

We take the health and safety of our patients and employees very serious. Due to the recent news around Covid-19 we have made temporary changes to our visitor policy, which includes limiting one (1) visitor per patient at any given time. These changes will impact all departments and we are adhering to strict visiting hours which are 8a.m. – 8p.m.

Please note patients in an isolation status will not be allowed visitors. Lastly, visitors must enter and exit from the main hospital entrance located at the front lobby.

Thank you for your understanding.
